Master Techniques in Podiatric Surgery: The Foot and Ankle

*Written by recognized experts in podiatry, this full-color text/atlas is a practical “how-to” guide to the most advanced and successful techniques for treating foot and ankle problems.*

Source: Lippincott Williams & Wilkins (LWW)

Author(s): Chang, Thomas J.

ISBN-10: 0781732352

The authors describe their preferred techniques in step-by-step detail, identify pitfalls and potential complications, and offer personal pearls and tips for improving results. The book is thoroughly illustrated with full-color, sequential, surgeon's-eye view intraoperative photographs and drawings demonstrating difficult surgical maneuvers.

Each chapter focuses on a specific procedure and covers indications, contraindications, preoperative planning, surgical technique, postoperative management, and complications.

- A list of recommended readings appears at the end of each chapter.
