Specialization and Credentialing in Nursing Revisited: Understanding the Issues, Advancing the Profession

This book sheds light on a recurring issue in nursing -- the specialization and credentialing of nurses.

Source: American Nurses Association, Inc
Author(s): Styles, Margretta Madden; Schuman, Mary Jean; Bickford, Carol; White, Kathleen M.
ISBN-10: 1558102574

Substantial changes in educational expectations and certification requirements, and the proliferation of nursing specializations have sparked debates on appropriate credentials, scope of practice, and state-by-state regulation of nursing scope of practice.

Specialization and Credentialing in Nursing Revisited offers the profession a unity model and pathway to create a consistent and supported methodology to define specialty and subspecialty practice, as well as a call to action.
