
The standard text for 174 World Federation of Chinese Medicine Societies (WFCMS) member societies in 55 countries - includes 6,526 terms

Source: People's Medical Publishing House
Author(s): World Federation of Chinese Medicine Societies; Li, Zhen-ji; He,
ISBN-10: 7117093560

The WFCMS invited over 200 specialists from 68 countries and 70 academic institutions of Chinese medicine to participate in the creation and development of the International Standard Nomenclature (ISN) for Chinese medicine. Each coded entry includes Chinese characters with pinyin and English equivalents. All terms are arranged according to subject and classified into 21 categories.
