Manual of Clinical Anesthesiology

This portable manual provides a highly visual, rapid-reference resource that presents anesthesia in a practical and clinically-focused manner.

Source: Lippincott Williams & Wilkins (LWW)
Author(s): Chu, Larry F.; Fuller, Andrea
ISBN-10: 0781773792

Manual of Clinical Anesthesiology guides anesthesiologists in rapid and focused clinical decision making with its practical, clinically-focused chapters on anesthesia management. This highly formatted manual includes chapter summaries to highlight key points discussed within each chapter, color-coded sections to quickly identify information, and icons calling out pearls and pitfalls. Chapters are short and easy to read.
