Cancer and its Management

*This highly-regarded book is designed as an introductory text on the principles of diagnosis, staging and treatment of tumors*

Source: Wiley-Blackwell
Author(s): Tobias, Jeffrey and Hochhauser, Daniel
ISBN-10: 1405170158

As with previous editions, the first part of the book is devoted to the mechanisms of tumour development and cancer treatment. This is followed by a systematic account of the current management of individual major cancers. For each tumour there are details of the pathology, mode of spread, clinical presentation, staging and treatment with radiotherapy and chemotherapy.

This accessible and practical resource will be invaluable to trainees in oncology, palliative care and general medicine, as well as specialist nurses, general practitioners, medical students, and professions allied to medicine.
