Expert Review of Gastroenterology & Hepatology

*Expert Review of Gastroenterology & Hepatology provides comprehensive coverage of state-of-the-art research and clinical advancements in the field as they occur.*

Source: Expert Reviews, Ltd.
Author(s): Victoria Lane
ISSN: 17474124

The journal focuses on the latest advances in our pathological, biochemical and physiological understanding of the diseases affecting the gastrointestinal tract and liver, in addition to up-to-the-minute developments in strategies for prevention, diagnosis and intervention.

Article coverage includes the following key areas:
* Latest advances in pathological, biochemical and physiological understanding of the diseases of the digestive system and its associated organs
* Developments in investigative strategies; such as radiology, endoscopy, cholangiopancreatography, colonoscopy and liver biopsy
* Advances in molecular diagnosis and biomarker research
* Recent developments in pharmacological approaches and emerging therapeutics
* Drug safety
* Disease-specific reviews, including coverage of digestive cancers, hepatitis infections, liver cirrhosis, inflammatory bowel disease, functional gastrointestinal disorder, and biliary and gall bladder disease
* Optimal management of pediatric digestive diseases, with regard to diagnosis and issues, such as absorption, nutrition and growth
* Psychosocial aspects
* Pharmacoeconomics and outcomes research, supplemented by cost–benefit analysis

The Expert Review format is unique in that it fosters a forward-thinking approach. Each review provides a complete overview of current understanding in a key area, which is augmented by the following key sections:
* Expert commentary - a personal opinion on the most effective or promising strategies
* Five-year view - a clear perspective of future prospects within a realistic timescale
* Key issues - an executive summary cutting to the authors most critical points
