Improving Patient Care
OvidMD® Core

All OvidMD subscriptions offer the following set of core content.

Full-Text Journals

- Cardiology
- Endocrinology, Diabetes & Obesity
- Gastroenterology
- Hematology
- Infectious Disease
- Nephrology & Hypertension
- Obstetrics & Gynecology
- Oncology
- Pediatrics
- Pulmonary Medicine
- Rheumatology

UpToDate®

Search UpToDate's 9,500 topics in 21 specialties; relevant topics are previewed in a separate area from other results. Subscribers to UpToDate have one-click access to full text. All results are presented in real-time and appear in the same order as they appear on UpToDate.

Ovid MEDLINE®

Trusted around the world, OvidMD searches this current and comprehensive biomedical database with citations from nearly 5,600 journals worldwide - updated daily.

Evidence-Based Guidelines

Written by physicians for physicians, these guidelines are updated quarterly and synthesize the best available evidence on diagnosis, management, and treatment of conditions seen in primary care, inpatient and emergency department settings.

National Guidelines Clearinghouse

OvidMD searches clinical practice guidelines from the U.S. Department of Health and Human Services on an array of topics covering diseases and conditions, treatments and interventions, plus health services and administration.
A to Z Drug Facts
Search drug information using generic or brand names. Drug monographs cover pharmacological and patient care considerations including action, indications, contraindications, route/dosage, interactions, lab test interferences, adverse reactions, precautions/warnings, administration/storage, assessment/interventions and patient education.

Patient Information
Access thousands of patient handouts from UpToDate and RelayHealth® (a division of McKesson”) including hundreds in Spanish. Topics cover Cancer, Children’s Health, Diabetes, Mental Health, Surgery and more.

Images
Search thousands of images, tables and charts; export one or multiple images with one-click into PowerPoint® presentations or share them with colleagues and patients.

Medical Calculators
Access to a wide array of medical calculators and decision tree analysis tools that healthcare professionals will use every day through MedCalc 3000.

CME
U.S. physicians can earn AMA PRA Category 1 Credit™ through researching a clinical topic in OvidMD.
