Today, nurses and other healthcare providers are striving more than ever to provide cost-effective, efficient patient care, based upon reliable research and best practice.

As nurses’ information needs develop with their growing role in modern healthcare, access to the right full text material is increasingly vital to their work and career development.

Nurses all over the world trust content from the American Nurses Association (ANA), the United States’ largest, most influential nursing professional organization. Whether they are in professional development, training or at the point of care, you can offer your users these widely-accepted, widely-used ebooks to ensure the quality of nursing at your institution and to improve patient outcomes.

The ANA is a full-service professional organization dedicated to advancing the nursing profession by fostering high standards of nursing practice among the 3.1 million registered nurses in the United States through its work and the work of constituent member nurses associations and its organizational affiliates.

Why ebooks from American Nurses Association on OvidSP and Nursing@Ovid?

- Key ebooks encompass both general and specialty nursing subjects, including the Magnet® journey, nursing informatics, quality nursing care, healthcare ethics, and professional development
- Enhance search and retrieval of nursing content with Nursing@Ovid, a single-source online solution built on the OvidSP architecture, featuring our proprietary controlled vocabulary designed expressly to meet the specific needs of nursing and allied health professionals of all types
- Access hundreds of titles on a variety of nursing and allied health topics from other leading publishers
- Search all of your subscribed resources—ebooks, journals, and databases—with just one search query
