OvidSP & Nursing@Ovid News
Ovid Resource Center Enhanced
On June 30th several improvements to the new OvidSP platform were deployed in advance of the planned August 2nd migration. Based on direct customer and end-user feedback, these improvements include:

• Adjustments to functionality on citation exporting and exported file formats (EndNote, RefWorks, and Reference Manager)
• Automatic de-duplication is now available within a project in My Projects
• Searching within My Projects now encompasses searching all citation fields
• Select a range of results option is now available in a results list
• You can now execute an Ovid Universal Search with an Ovid Jumpstart (for Ovid Universal Search customers)
• Additional display and linking adjustments
• Added Bizint Smartcharts tabular reporting functionality to support Ovid corporate customers on patent and drug pipeline research

Ovid Resource Center Enhanced
The Ovid Resource Center has been enhanced with easier navigation and new tools to help you find the information you need. We’ve removed duplicate information, revised section button text, and added new sections and content to the Librarian Toolkit, including a dedicated section for webcasts and case studies and the new Tools and Widgets. Add an OvidSP Search Bar to your library portal. Or, add a tool that allows you and your users to search in a preferred database on OvidSP directly you’re your browser.

Ovid Webcast News
The on-demand version of the “Putting AutoAlerts to Work for You” webcast is now available - you can access the 60-minute session at http://www.ovid.com/ovidwebcasts.

Book News
See below for more details on nearly 50 brand-new books and 4 new editions of tried-and-true classics.

New Books
BEHAVIORAL & SOCIAL SCIENCES: PSYCHOLOGY
A single resource that offers theoretical perspectives and reviews of research on the link between health behaviors and physical illness to anxiety. Special attention is devoted to the mechanisms by which certain health factors (e.g. physical exercise) may play a role in the onset or maintenance of particular anxiety disorders.

This comprehensive volume is an essential resource for the researcher’s library and the clinician’s desk as well as a dependable text for graduate and postgraduate courses in clinical child, developmental, and school psychology.

A key aim of the book is to explore a wide range of historical and contemporary issues relating to prisons, imprisonment and prison management, and to chart likely future trends. Chapters in the book are written by leading scholars in the field, and reflect the range and depth of prison research and scholarship.

Bringing together exciting new research on a central topic in human motivation, this volume is an important addition to the libraries of personality, social, and cognitive psychologists, affective and social neuroscientists, clinical psychologists, as well as graduate students in these fields and practitioners.

This book is the first to examine key topics and cutting-edge research in involuntary memory.

This book provides essential information about the variety of seizure disorders and serves as a basic epilepsy reference guide for students and practicing clinical neuropsychologists.

Looks across the sometimes disparate perspectives from school, clinical, and developmental researchers and professionals with an eye towards describing and integrating current knowledge into a guide for evidence-based practices and further research.

The stress and mood management program described has been developed over more than ten years of research and clinical trials. This therapist guide provides instruction for delivering treatment to individuals with MS who are experiencing stress and depressed mood.

Based on the principles of cognitive-behavioral therapy (CBT), one of the most effective therapeutic techniques available for combating depression and anxiety, this program can help individuals with MS manage stress and improve their well-being. Approaches that seek to understand the significance of the emotions that surround criminal behavior, allowing for an exploration of individual differences and social and cultural issues which help to bridge the gaps between disciplinary approaches.

This one-of-a-kind guide operationalizes this crucial service delivery framework, highlighting the importance of data-based decision making and offers concrete guidelines for collecting, analyzing, and displaying data.

The best-selling Response to Intervention: A Guide for School Social Workers is an up-to-date, practical and comprehensive guide for school social workers. It is an evidence-based approach.
from around the world, *Sleep: A Comprehensive Handbook* covers the entire field of sleep medicine. Taking a novel approach, the text features both syndrome- and patient-oriented coverage, making it ideally suited for both clinical use and academic study.

The authors convey complex information about stroke and its management in a digestible yet comprehensive format.

The third edition of *The Treatment of Epilepsy* has been thoroughly updated. It is a reference work, but has a strong practical bias, and is designed to assist neurologists, neurosurgeons and other clinicians at all levels who are involved in the treatment of patients with epilepsy. It is a definitive source of clinical information to guide clinical practice and rational therapy.

**CLINICAL MEDICINE: OPHTHALMOLOGY**

General ophthalmologists as well as retina specialists will find this a very useful guide which illustrates typical FAF (Fundus autofluorescence) characteristics of various retinal diseases.

The second volume of *Oculoplastic and Orbital Surgery* continues in the excellent tradition of this unique series, offering a comprehensive update on a number of complex and challenging orbital disorders, including idiopathic orbital inflammation, ocular adnexal lymphoproliferative disorders, metastatic orbital tumors, and the latest therapies.

The third volume of *Oculoplastic and Orbital Surgery* continues in the excellent tradition of this unique series, offering a comprehensive update on a number of complex and challenging orbital disorders, including idiopathic orbital inflammation, ocular adnexal lymphoproliferative disorders, metastatic orbital tumors, and the latest therapies.
Combines an evidence-based guide to frequently seen neurological and developmental disorders in children with compelling case histories, highlighting the uniqueness of every young client—and the skills involved in providing effective evaluation and treatment for every client—to create an innovative, one-of-a-kind resource.

**CLINICAL MEDICINE: RADIOLOGY**
Written by a prestigious group of international contributors, individual chapters serve as a relevant and up-to-date reference of adrenal imaging findings, algorithms and techniques in CT, MR nuclear medicine, intervention, and trauma. Summary sections at the end of each chapter illuminate key teaching points to enhance retention.

**CLINICAL MEDICINE: SURGERY**
The fifth edition has been completely revised and updated to reflect new discoveries in the field of Vascular Surgery. This edition features 28 new chapters written by leading vascular surgeons.

**CLINICAL MEDICINE: BIOCHEMICAL SCIENCES**
Written by the specialists who innovated these techniques in the lab and performed the first procedures on humans for early clinical trials, this book reflects the practically oriented approach in every chapter.

**LIFE & BIOMEDICAL SCIENCES: BIOCHEMISTRY & BIOPHYSICS**
This volume, written by experts in the field, is the first to deal with the relationship between human disease and the actin cytoskeleton.

**LIFE & BIOMEDICAL SCIENCES: IMMUNOLOGY**
This Atlas includes major issues of up-to-date information about immunophenotype, morphology and the function of the main effectors of anti-tumor immunity in a well presented format.

This compilation presents mini-reviews derived from work presented at the Aegaean Conference: “First Crossroads between Innate and Adaptive Immunity,” which occurred October 9-14, 2005 at the Hilton Conference Center on the island of Rhodes, Greece.

**LIFE & BIOMEDICAL SCIENCES: PHYSIOLOGY**
Sounds that are actually produced by healthy ears allow researchers and clinicians to study hearing and cochlear function noninvasively in both animals and humans; this volume presents the first serious review of the biological basis of these otoacoustic emissions.

**NURSING: LEGAL ISSUES**
Starting with detailed cases based on real life, the fourth edition of *Ethics in Nursing* introduces the principles, concepts, and reasoning needed to think them through.

**The Law and the Midwife**; Jones,
The second edition of this successful text is an essential and accessible guide to legal aspects of midwifery for all midwife supervisors, midwives, and midwifery students.

**NURSING: MEDICAL/SURGICAL NURSING**
Children and young people account for a quarter of all patients treated in emergency departments in the UK, with three million children attending emergency departments every year. This book prepares practitioners for the challenges of caring for children in emergency departments. Children requiring emergency care have unique and differing needs and may not respond or cooperate during an initial assessment as an adult would.

**NURSING: MEDICAL/SURGICAL NURSING**
The fully updated second edition of this book continues to take a systematic approach to comprehensive patient assessment.

**PUBLIC HEALTH: COMMUNITY HEALTH & DISEASE PREVENTION**
Provides new perspectives on how aging is affected by chronic disease.

**PUBLIC HEALTH: COMMUNITY HEALTH & DISEASE PREVENTION**
*The Bottom Line or Public Health: Tactics Corporations Use to Influence Health and Health Policy, and What We Can Do to Counter Them; Wiist, William H.; Oxford University Press, 1st edition (2010); 592 pages; ISBN10: 0195375637*
When corporations claim the same citizenship rights as human citizens, they exert an undue influence on health policy and democratic processes. In this book, authors from around the world reveal the range of tactics used across the corporate world that ultimately favor the bottom line over the greater good.

**PUBLIC HEALTH: EPIDEMIOLOGY, BIOSTATISTICS**
Weaving together history, biology, obstetrics, pediatrics, demography, infectious diseases, molecular genetics, and evolutionary biology, the author brings fresh coherence to the epidemiologic study of reproduction and pregnancy.

**SCIENCE: EARTH & GEOLOGICAL SCIENCES**
This book will provide those individuals who manage research with methods and procedures that can be used in their management organization.

**SCIENCE: EARTH & GEOLOGICAL SCIENCES**
Here’s a comprehensive book on Agrobacterium research, including its history, application, basic biology discoveries, and effects on human society.

**SCIENCE: EARTH & GEOLOGICAL SCIENCES**
Topics considered by this volume are pathogen diversity, legume genetics and breeding, and integrated disease management.

**NEW EDITIONS**
**LIFE & BIOMEDICAL SCIENCES: MEDICAL GENETICS**
*Human Genome Epidemiology: Building the Evidence for Using Genetic Information to Improve Health and Prevent Disease; Khoury, Muin; Bedrosian, Sara; Gwinn, Marta; Higgins, Julian; Ioannides, John; Little, Julian; Oxford University Press, 2nd edition (2009); 704 pages; ISBN13: 9780195398441, ISBN10: 0195398440*
This second edition contains a fully updated look at the ways in which genetic factors in common diseases are studied.

**NEW EDITIONS**
**INBORN ERRORS OF DEVELOPMENT**
Honored by the Association of American Publishers as the Best Medical Book of 2004, *Inborn Errors* is the definitive work on genetically
caused abnormalities of human development.

**NURSING: NUTRITION**
Updated to reflect the latest evidence-based practice and nutrition recommendations and streamlined to emphasize what the nurse really needs to know.

**PUBLIC HEALTH: EPIDEMIOLOGY**
This new edition of the best-selling “Basch” textbook is a comprehensive global overview of the many factors that determine the health of individuals and populations.

**Journal News**
As part of the Lippincott Williams & Wilkins Total Access Collection third quarter update, three titles have been removed from the collection because they have ceased publication.
- *Contemporary Critical Care* (backfiles still available)
- *Health Data Matrix*
- *ACADEMIC Physician & Scientist* (backfiles still available)

In addition, the *Journal of Bronchology* has undergone a title change; it is now called *Journal of Bronchology & Interventional Pulmonology*.

**Database News**
PsycEXTRA, a critical “gray” literature database focusing on psychology and the behavioral sciences and published by the American Psychological Association (APA), has been reloaded with new 2010 Thesaurus tools. Check the PsycEXTRA Database Field Guide in OvidSP for more details.
