OvidSP Migration Date Changed to August 1st
Click on the Try it Now! button located at the top of the OvidSP interface to check out the new enhancements. Prepare for your migration by visiting the OvidSP Resource Center—for screenshots, frequently asked questions, and other supporting tools.

Platform Training Update
Two additional self-running tutorial videos are now available via the Support & Training section of the Ovid Resource Center, bringing to 7 the total number now available:

- Search Tools Overview
- Select a Database

Ovid Webcast News
The on-demand version of the “Putting AutoAlerts to Work for You” webcast is now available - you can access the 60-minute session at http://www.ovid.com/ovidwebcasts.

Book News

BEHAVIORAL & SOCIAL SCIENCES: PSYCHOLOGY
This book aims to demonstrate how forensic psychology contributes to police investigations, providing practical information about the type of reports provided by psychologists and behavioral advisers, and set within a broader theoretical context. It asks the question - What do practitioners actually do when they provide advice for the police and the courts and how do they do it?

This is a comprehensive reference book on the subject of forensic mental health, looking at what forensic mental health is and its assessment, management and treatment. It focuses on key topics and the issues underpinning them in contemporary society.

A key aim of the book is to explore a wide range of historical and contemporary issues relating to prisons, imprisonment and prison management, and to chart likely future trends. Chapters in the book are written by leading scholars in the field, and reflect the range and depth of prison research and scholarship.

Sex offenders, and in particular pedophiles, have been the subject of much political and media attention, producing intensive debates about the best way of dealing with them. This book explores these issues, evaluating the measures in use or being considered, including drug treatment, MAPPA, the use of the Sex Offender Register, restorative...
justice techniques, and treatment programs. It is concerned with high-risk sex offenders both when they are sentenced to a community order, and also when they are released back into the community after a custodial sentence.

This book provides a systematic account of parental behavior and the means of identifying and addressing inadequate parenting. It is intended for professionals who work with children or adults who were harmed as children, and its central concern is with parents who endanger their children or whose children may endanger themselves or others.

Provides a critical overview of social work and community justice in Scotland, taking full account of recent developments.

What causes young people to offend? What influence do schools have on young peoples’ offending behavior in relation to other possible causal factors? These critical criminological and educational questions are addressed in Schools and the Problem of Crime.

This book explores current criminal justice responses to the management of individuals who are convicted of sexual offences.

The threat of violence concerns most people most profoundly. It has long been a topic of intensive academic, practical and political debate and in recent years the workplace has emerged as a recognized site of violence, threat and menace. This book makes a significant contribution to the growing literature on workplace violence.

The book is concerned particularly to assess the operation of sex offender treatment programs in the UK context, considering also the issues associated with implementing programs developed in other contexts, especially the USA and Canada.

This book aims to integrate psychological and criminological perspectives in order to better understand the nature of criminal behavior. In particular it aims to explore the range of psychological approaches that seek to understand the significance of the emotions that surround criminal behavior, allowing for an exploration of individual differences and social and cultural issues which help to bridge the gaps between disciplinary approaches.

This is an accessible text which
clarifies the crucial theoretical and methodological debates surrounding the study of criminal careers.

**CLINICAL MEDICINE:**
**DERMATOLOGY**

This concise new reference uses tables, algorithms, protocols, guidelines, and staging and scoring systems to present succinct guidance on best-practice patient care.

**CLINICAL MEDICINE: EVIDENCE-BASED, DERMATOLOGY**

Written and edited by some of the world’s leading experts in evidence-based dermatology, *Evidence-based Dermatology* takes a highly evidence-based approach to the treatment of all major and many of the less common skin conditions.

**CLINICAL MEDICINE: EVIDENCE-BASED, GASTROENTEROLOGY AND HEPATOLOGY**

Traditional textbooks in this field have emphasized the basic sciences of pathology, biochemistry and physiology. *Evidence-based Gastroenterology and Hepatology* covers all the major diseases of the gastrointestinal tract and liver, utilizing clinical epidemiology to present the strongest and most current evidence for interventions.

**CLINICAL MEDICINE: EVIDENCE-BASED, INFECTIOUS DISEASES**

The fully updated second edition of this case-led text provides an excellent introduction to evidence-based clinical practice for the major areas of infectious disease management. The new edition takes on a brand new design and focus, making the book more accessible to junior doctors in infectious diseases and microbiology and general internists.

**CLINICAL MEDICINE: EVIDENCE-BASED, OBSTETRICS & GYNECOLOGY**

This is the first text to systematically review the evidence for obstetric anesthesia and analgesia.

**CLINICAL MEDICINE: EVIDENCE-BASED, ONCOLOGY**
*Evidence-based Oncology*; Williams, Christopher B.; Bramwell, Vivien; Bonfill, Xavier; Cuzick, Jack; Grant, Robin; Guthrie, David; Mason, Malcolm; Simmonds, Peter; Singh, Arun D.; Weston, Rosalynne; Williams, Hywel C.; Wiley-Blackwell, 1st edition (2003); 613 pages; ISBN-13: 978-0727914392

Written by oncologists for oncologists, using examples throughout to illustrate key points this is a book about using the best evidence to inform treatment decisions for people with cancer.

**CLINICAL MEDICINE: EVIDENCE-BASED, PEDIATRICS**

A ground-breaking new text on pediatrics and child care management, using an evidence-based approach.

**CLINICAL MEDICINE: EVIDENCE-BASED, SPORTS MEDICINE**

This second edition of the popular book *Evidence-based Sports Medicine* builds on the features that made the first edition such a valuable text and provides a completely up-to-date tool for sports medicine physicians, family practitioners and orthopedic surgeons.

**CLINICAL MEDICINE: NEUROLOGY**
A unique book that brings together peer-reviewed guidelines for the treatment and management of neurological disease.

**CLINICAL MEDICINE: PALLIATIVE MEDICINE**

This handbook is a practical and comprehensive introduction to the field of palliative medicine, providing clear insight into many of the complex issues that arise in the delivery of palliative care and will be an invaluable resource to all disciplines involved in palliative care in hospital, hospice and community settings.

**LIFE & BEHAVIORAL SCIENCES: GENETICS & GENOMICS**

This book is about the increasing significance of DNA profiling for crime investigation in modern society and focuses on developments in the UK as the world-leader in the development and application of forensic DNA technology and in the construction of DNA databases as an essential element in the successful use of DNA for forensic purposes.

**NURSING: CRITICAL CARE**

There have been many changes in the arena of ophthalmic care since the last edition of this book was published. This fourth edition has been fully updated and revised to reflect these recent advances in care, and incorporates new information on patient care, contexts of care, and expanded roles.

**NURSING: FUNDAMENTALS OF NURSING**

The theory behind the PDU model is outlined and the key principles underpinning it are identified.

There have been major advances in practice nursing in recent years, and a rapid expansion in the role of the practice nurse. The Practice Nurse Handbook is an essential guide to all aspects of clinical practice, health promotion, and practice management, for nurses in general practice.

**NURSING: PSYCHIATRIC/MENTAL HEALTH NURSING**

Provides an analytical and critical introduction to the current state of knowledge in psychiatric and mental health nursing in the UK.

**PSYCHOLOGY**

A collection of newly written articles that provide an overview of methods and approaches associated with the study of human recognize and respond appropriately to psychosexual anxiety and distress.
Employee Well-being Support: A Workplace Resource is a detailed guide to employee wellbeing. Psychological Assessment in the Workplace: A Manager’s Guide provides an up-to-date summary of the latest theory and practice in unipolar and bipolar mood disorders. Offenders’ Memories of Violent Crimes takes a different approach to the subject by focusing not on eyewitness or bystander testimonies, but on the testimonies of the offenders, or, more specifically, offenders’ remembering and telling about their violent crimes. Personal Construct Psychology: New Ideas presents the latest thinking and research in Personal Construct Psychology (PCP) covering a broad range of areas of interest to both researcher and practitioner.

Personality Disorder and Community Mental Health Teams: a Practitioner’s Guide considers the various difficulties encountered, with reference to current thinking about the origins, maintenance and treatment of personality disorder. Posttraumatic Stress Disorder: Issues and Controversies considers whether such memory loss is genuine or feigned. Offenders’ Memories of Violent Crimes takes a different approach to the subject by focusing not on eyewitness or bystander testimonies, but on the testimonies of the offenders, or, more specifically, offenders’ remembering and telling about their violent crimes. Personal Construct Psychology: New Ideas presents the latest thinking and research in Personal Construct Psychology (PCP) covering a broad range of areas of interest to both researcher and practitioner.

Offenders’ Memories of Violent Crimes; Christianson, Sven A.; Wiley-Blackwell, 1st edition (2007); 400 pages; ISBN-13: 978-0470015070 Claims of amnesia for violent and sexual crimes are extremely common as guilty suspects often allege memory loss to avoid punishment. The important issue in each case then becomes whether such memory loss is genuine or feigned. Offenders’ Memories of Violent Crimes takes a different approach to the subject by focusing not on eyewitness or bystander testimonies, but on the testimonies of the offenders, or, more specifically, offenders’ remembering and telling about their violent crimes. Personal Construct Psychology: New Ideas; Caputi, Peter; Foster, Heather; Viney, Linda L.; Wiley-Blackwell, 1st edition (2006); 358 pages; ISBN-13: 978-0470019436. This book presents the latest thinking and research in Personal Construct Psychology (PCP) covering a broad range of areas of interest to both researcher and practitioner.

Personality Disorder and Community Mental Health Teams: a Practitioner’s Guide; Sampson, Mark J.; McCubbin, Remy A.; Tyrer, Peter J.; Wiley-Blackwell, 1st edition (2006); 386 pages; ISBN: 978-0-470-01171-3 Practitioners in Community Mental Health Teams (CMHTs) frequently find that traditional forms of support are ineffective when offered to patients with personality disorder. This book considers the various difficulties encountered, with reference to current thinking about the origins, maintenance and treatment of personality disorder.

In this innovative book, Hermione Roff introduces Reflective Interpersonal Therapy for Children and Parents (RICAP), a new intervention that looks at the processes underpinning disruptive and aggressive behavior problems.

Presents the latest international developments and practical treatment interventions that can be used with co-morbid individuals and their families.

A timely overview of new psychological interventions in this exciting and emerging field, presenting the most up-to-date progress in the identification of individuals who are at ultra high risk of developing a psychotic illness.

This edited collection showcases the latest thinking in LGBTQ psychology.

Database News
Inspec Database Reload News: New Fields and Classification Codes Added
International Patent Classification (IPC) Codes, which will apply to roughly 75% of all records back to 1969, are among the new fields and codes added.
