More than 450 Electronic Journals and Books in Neurology

The increase in life expectancy globally not only has an effect on physical but also mental conditions. Neurological disorders are rising with the aging population. The World Health Organization estimated that neuropsychiatric disorders will continue to rise to over the next decade. Focus on prevention, diagnosis and treatment requires tremendous resources.

With OvidSP you have one-click access to a comprehensive selection of over 450 online resources in Neurology from leading societies and key publishers. This premium content includes highly-cited journals and highly-ranked books. OvidSP’s unique tools and features are designed to maximize search precision and efficiency, and simplify analysis and workflow. Core Journals and Books in Neurology

The following resources are a must for any institution. For a complete list of journals and books in Neurology, visit www.ovid.com/neuro.

Journals

**Neurology®**
Lippincott Williams & Wilkins
As the Official Journal of the American Academy of Neurology, *Neurology* is directed to physicians concerned with diseases and conditions of the nervous system. It continues to advance the field by presenting new basic and clinical research emphasizing knowledge that will influence the way neurology is practiced. *Neurology* is only available with *Neurology® Clinical Practice*.

**Neurology: Clinical Practice**
Lippincott Williams & Wilkins
As an official journal of the American Academy of Neurology, *Neurology* Clinical Practice brings you peer-reviewed, timely updates in clinical neurology, with a focus on your day-to-day concerns. *Neurology: Clinical Practice* is only available with *Neurology*.

**Journal of Head Trauma Rehabilitation**
Lippincott Williams & Wilkins
This is a peer-reviewed journal that provides information on clinical management and rehabilitation of persons with head injuries for the practicing professional.

**CNS Drugs**
Springer Science+Business Media
This journal presents essential information about the drug treatment of psychiatric and neurological disorders, covering topics from basic pharmacology to drugs in development.

Books

**Spinal Trauma**
Lippincott Williams & Wilkins
In one cohesive source, the book brings together information on state-of-the-art clinical imaging, including multidetector CT and high-field MRI techniques, and the pathophysiology, neurologic evaluation, medical management, surgical treatment, and postoperative assessment of spine trauma and spinal cord injury.

**Textbook of Clinical Neuropsychiatry**
Hodder Arnold
Based on an exhaustive scan of the English-language literature in the fields of psychiatry and neurology, this well-organized book presents, in a logical fashion, an encyclopedic guide to the overlap between the two disciplines, providing practitioners and students with all they need to know to diagnose and treat patients with neuropsychiatric disorders.

**Clinical Adult Neurology**
Demos Medical Publishing
With emphasis on diagnostic tools and strategies as well as management pearls and perils, *Clinical Adult Neurology* will meet the needs of all health care practitioners caring for patients with neurologic disorders.

**The 5-Minute Neurology Consult**
Lippincott Williams & Wilkins
Using the famous two-page layout and outline format of The 5-Minute Consult Series, the book provides instant access to clinically-oriented, must-have information on all disorders of the nervous system.
