

January 2015

Books@Ovid Interface Enhancement

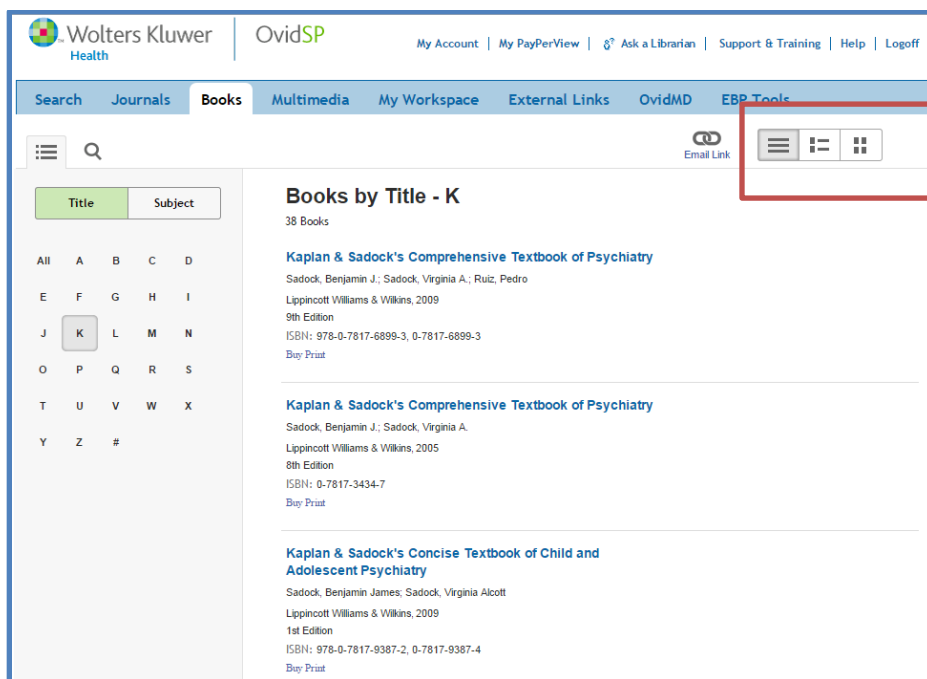

Frequently Asked Questions

1. What is included in this release?

The January 2015 3.14 release of Ovid contains an updated, improved interface for browsing books. The interface has been completely refreshed with a more pleasing and intuitive look and feel.

There are now 3 distinct views that can be selected for browsing book titles: Citation View, Newsstand View and Hybrid View.

Citation view:

Users can toggle between 3 new browse books views using the icons in the upper right corner

Newsstand view:

Wolters Kluwer Health | OvidSP | My Account | My PayPerView | Ask a Librarian | Support & Training | Help | Logoff

Search Journals Books Multimedia My Workspace External Links OvidMD EBP Tools

Buy Print

2. What is “Lazy Loading”?

“Lazy loading” has been introduced with the new Books browse interface. At first, users will see only the first 20 records. As users scroll down, the next 20 records are revealed, which repeats until all titles in the filter (subject or title) are displayed.

“Lazy loading” on OvidSP is similar to the user experience browsing Facebook® or LinkedIn®.

3. Does this release change OvidSP system requirements?

No, system requirements remain the same. However, we encourage our customers to stay up to date with all available browser updates so users can enjoy the best user experience on OvidSP.
